MELANOMA AND SKIN CANCER AWARENESS MONTH

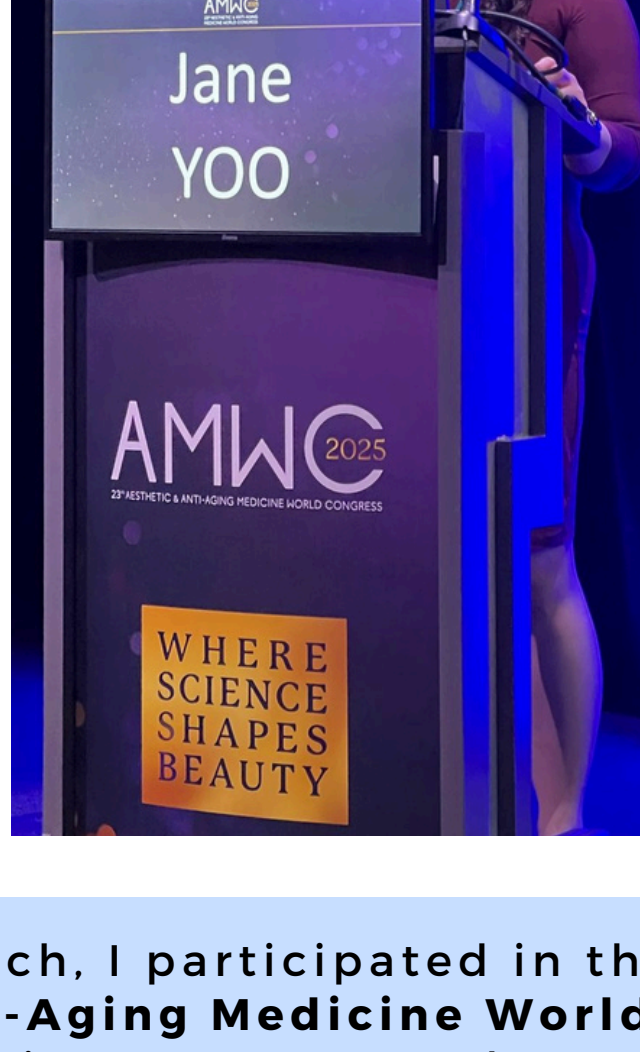

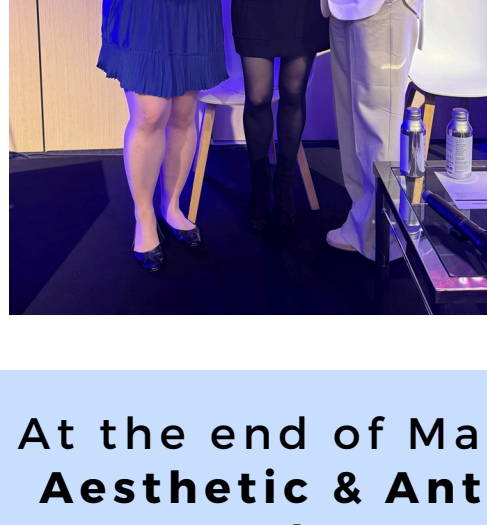

May is Melanoma and Skin Cancer Awareness Month! Skin cancer is the most common cancer in the U.S. and can develop anywhere on the body, especially in areas highly exposed to sunlight.

Melanoma, the most serious form, is especially dangerous if not caught early. The risk of skin cancer can be minimized by using broad-spectrum sunscreen that protects against both UVA and UVB radiation. Make sure to get your skin checked!

AESTHETIC & ANTI-AGING MEDICINE WORLD CONGRESS

2025 AMWC ANNUAL MEETING

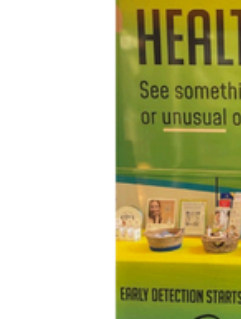

At the end of March, I participated in the **Aesthetic & Anti-Aging Medicine World Congress (AMWC)** in Monaco. I moderated the Skin of Color session, where we discussed the safe and effective use of lasers and energy-based devices in diverse skin types. I also chaired the session on Aesthetics New Joiners: Future Trends and Innovations in Aesthetic Medicine, highlighting the role of AI in aesthetics and leading a discussion on what lies ahead for our field.

THE AMERICAN SOCIETY FOR LASER MEDICINE AND SURGERY

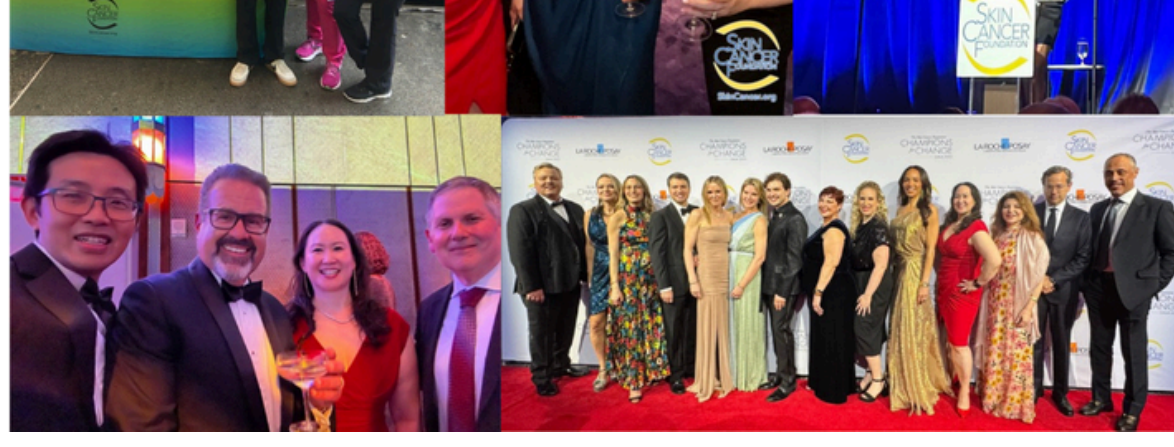

2025 ASLMS ANNUAL CONFERENCE

I had the opportunity to attend the **44th ASLMS Annual Conference** in Orlando, where I spoke at the Early Career Clinical Pearls session and joined discussions on Best Practices for Skin of Color. It was a privilege to connect with colleagues and learn from experts across specialties about the evolving role of lasers and energy-based technologies.

SKIN CANCER FOUNDATION CHAMPIONS FOR CHANGE GALA

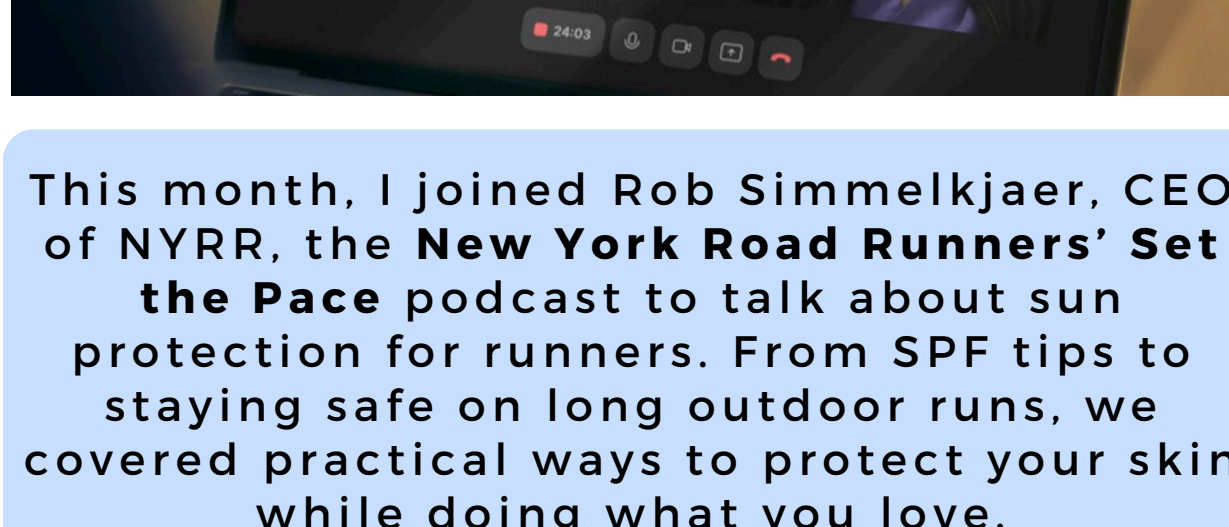

It was an honor to attend the **Champions for Change** Gala alongside Skin Cancer Awareness Month, alongside advocates like Brendan Fraser, Uma Thurman, and Christie Brinkley.

This year felt especially meaningful, as I was recognized as a member of the Foundation's **Photobiology Committee** for our contributions to the **Seal of Recommendation** program. The event raised funds for Destination Healthy Skin, the Foundation's mobile screening and education program.

DONATE TO THE SKIN CANCER FOUNDATION!

NYRR PODCAST

This month, I joined Rob Simmelkjaer, CEO of NYRR, the **New York Road Runners' Set the Pace** podcast to talk about sun protection for runners. From SPF tips to staying safe on long outdoor runs, we covered practical ways to protect your skin while doing what you love.

AMERICAN COLLEGE OF MOHS SURGERY

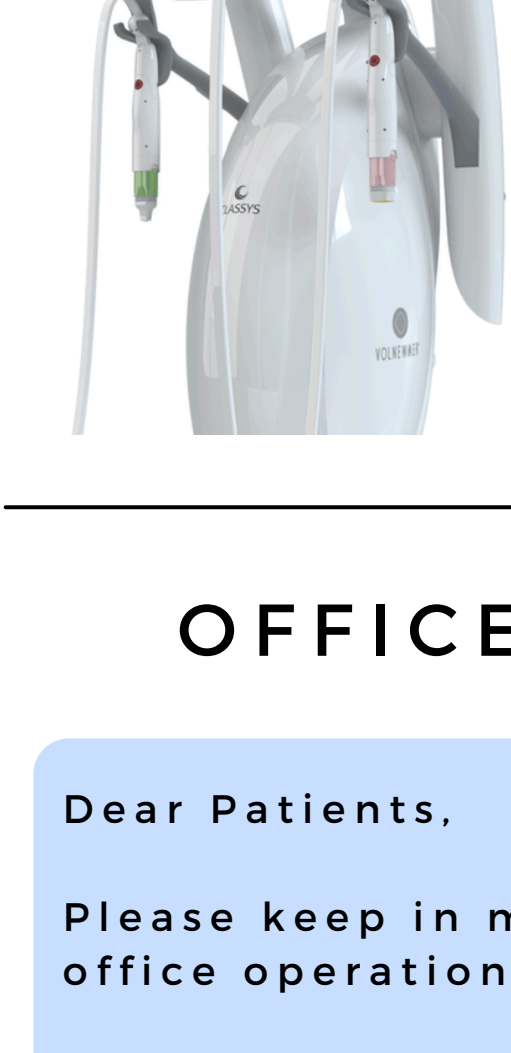

2025 ACMS ANNUAL CONFERENCE

This month, I also attended the **57th Annual Meeting of the American College of Mohs Surgery**, joining top minds in dermatologic oncology and reconstructive surgery. It was a meaningful few days of learning and reconnecting with colleagues whom I had not seen in decades!

NEW TECH SPOTLIGHT

EVERESSE BY CLASSYS

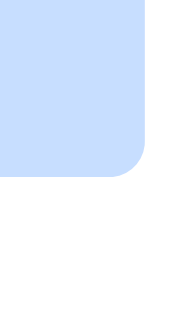

Looking for a way to **lift and firm** your skin without surgery or downtime?

EVERESSE is a non-invasive radiofrequency treatment that helps **tighten loose skin, smooth fine lines, and improve overall tone and texture**. It's great for areas like the jawline, eyes, and abdomen, places where skin tends to sag or lose elasticity over time!

As collagen rebuilds in the weeks that follow, your skin looks firmer, fresher, and more lifted.

OFFICE REMINDERS

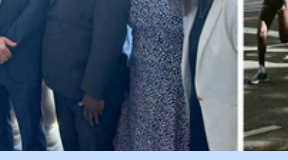

Dear Patients,

Please keep in mind these policies regarding office operations:

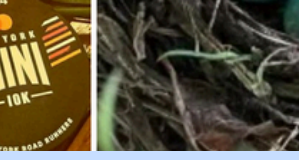

1) Please email us at appts@janeyoomd.com for appointment requests.

2) We are going digital! Please utilize the patient portal in order to streamline communications.
