TECHNOLOGY SPOTLIGHT: MICRONEEDLING

Smoother texture and softer scars this fall

Cooler months are the ideal time for treatments that need a little recovery time.

Microneedling uses tiny needles to create controlled micro-injuries in the skin, stimulating **natural collagen production**. It helps **improve acne scars, enlarged pores, fine lines, and overall skin texture**.

Start a series now for smoother, more refined skin in the months ahead. Email appts@janeyoomd.com for more information.

PRODUCT SPOTLIGHT: BARRIER CARE

As temperatures drop and the heat comes on, skin loses moisture fast. Look for creams with ceramides, cholesterol, and fatty acids, the building blocks that **rebuild and protect your skin barrier**.

Cica (centella) and **panthenol** add soothing support for dry, reactive, or eczema-prone skin. Applied to damp skin after bathing, they make a **great winter upgrade to your routine!**

HALLOWEEN SKIN SURVIVAL GUIDE

Enjoy the costumes without the breakouts, rashes, or irritation:

- **Patch-Test First:** Try costume makeup, glitter, and adhesives on your inner arm 24-48 hours before the big night.
- **Prep Your Canvas:** Apply a moisturizer under face paint to create a protective layer and make removal easier.
- **Take It All Off:** Remove everything with an oil cleanser before bed. Never sleep in face paint or glitter.
- **Don't Share:** Skip shared makeup, brushes, and decorative contact lenses to avoid infections and eye injuries.
