THE LATEST FROM DR. YOO REGARDING
DERMATOLOGY AND SKIN CARE

SYDNEY MARATHON COMEBACK

Last year, she had to stop at mile 24. But this year, she returned to the Sydney Marathon and finished what she started. Dr. Yoo recently celebrated completing her **7th Abbott World Marathon Major**.

Her journey is a powerful reminder that progress isn't always about speed. It's about **showing up and keeping going**. Whatever your health and wellness goals may be, there's always an opportunity to take the next step.

Sometimes, the most meaningful victories come from **returning to finish what you started**.

CELEBRATE HEALTHY AGING MONTH

September is **Healthy Aging Month**. It's important to remember that healthy aging extends beyond how we feel; it also shows in our skin. We want to **invest in your skin longevity** starting today so you can continue to look and feel your best for years to come.

As collagen production naturally declines with age, focusing on **prevention and support for your skin** becomes important. Treatments like Everesse and biostimulators can support the skin's natural collagen building process.

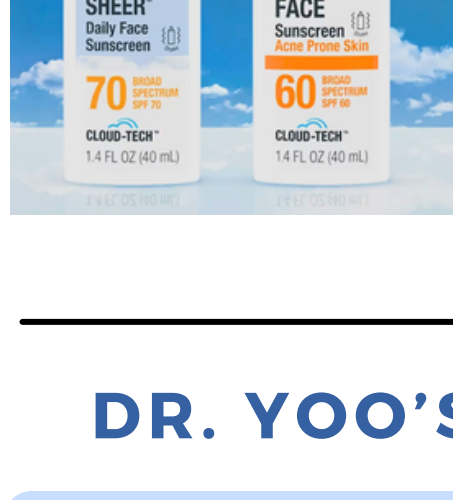

MAJOR MILESTONES FOR SUN PROTECTION

BEMOTRIZINOL (BEMT), A MODERN BROAD-SPECTRUM UV FILTER LONG USED INTERNATIONALLY, IS NOW MAKING ITS WAY INTO SUNSCREENS AVAILABLE IN THE U.S. BEMT PROVIDES STRONG **UVA** AND **UVB** PROTECTION AND IS HIGHLY PHOTOSTABLE, GIVING SUNSCREEN FORMULATORS MORE FLEXIBILITY TO CREATE LIGHTWEIGHT, WEARABLE FORMULAS.

HERE IS WHAT IS NOW AVAILABLE IN THE U.S.:

ULTRA VIOLETTE UNBLOCK SCREEN SPF 50

ONE OF THE FIRST BEMT-CONTAINING SUNSCREENS LAUNCHED IN THE U.S., DESIGNED FOR ACNE-PRONE, OILY, AND REACTIVE SKIN WITH A SOFT-MATTE FINISH.

NEUTROGENA® CLOUD-TECH™ SUNSCREEN

ALSO FORMULATED WITH 6% BEMT, THE CLEAR FACE OPTION IS DESIGNED WITH ACNE-PRONE SKIN IN MIND AND INCLUDES NIACINAMIDE AND VITAMIN E.

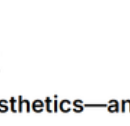

DR. YOO'S PRESS FEATURES

Dr. Yoo's expertise continues to be recognized by leading national and industry publications. Recent media features in Allure, AOL and happi highlight her insights on dermatology, skincare, and emerging trends in aesthetic medicine.

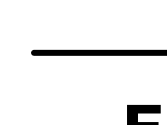

8 Best Wrinkle Serums to Smooth Etches and Lines

Dermatologists break down their favorite plumping formulas.

If You've Been Skipping Scalp Serums, It's Time to Try These Korean Scalp Serums

Neutrogena's First BEMT Formulas Hit the US Market

Two new facial sun care formulas with bemotrizinol offer high SPF with elevated aesthetics—and that's the key to daily compliance, according to dermatologists.

TECHNOLOGY SPOTLIGHT: FRAXEL DUAL, FALL VERSION

Ready to trade your summer glow for autumn renewal?

PHOTOGRAPHS COURTESY OF SOLTA MEDICAL AESTHETIC CENTER

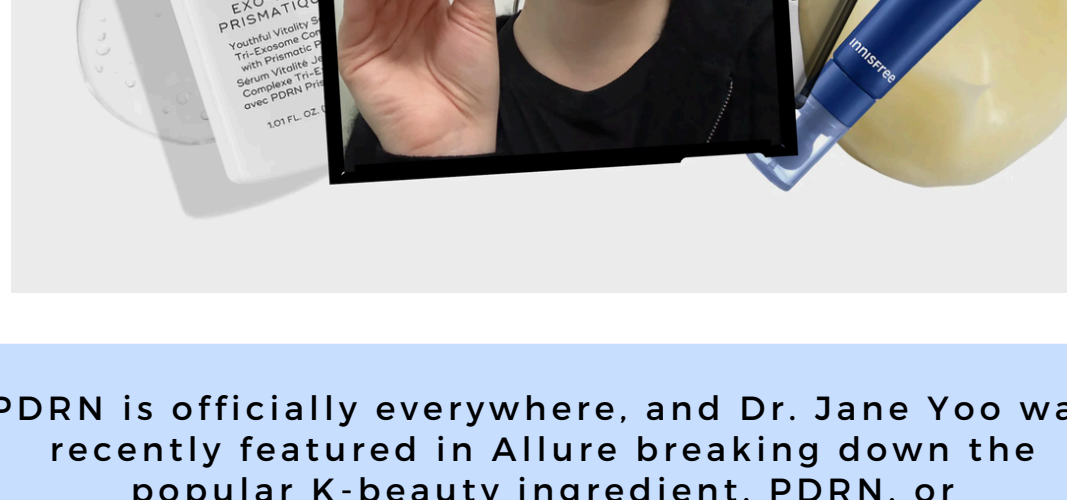

Summer leaves behind great memories—and sometimes, sun damage, hyperpigmentation, and uneven texture.

Fraxel DUAL 1550/1927, a non-ablative laser device that triggers deep collagen production. It helps repair sun damage, pigmentation, smooth fine lines and improve skin texture.

Start now, and you'll be radiating smoother, brighter, photoready skin just in time for the holiday season. Email appts@janeyoomd.com for more information.

PRODUCT SPOTLIGHT: PDRN SERUMS

PDRN is officially everywhere, and Dr. Jane Yoo was recently featured in Allure breaking down the popular K-beauty ingredient. PDRN, or polydeoxyribonucleotide, is actually derived from salmon sperm DNA. Sounds unusual, but PDRN is used to **promote tissue repair, counter the effects of aging and support your skin barrier**.

You can find topical serums and creams that contain PDRN. They could be **great addition to your skincare routine!**

AUTUMN SEASONAL TIP BOX

Here's your quick, dermatologist-approved routine to prep your skin for fall:

- **Restart Your Retinoids:** Reintroduce retinol into your skincare routine. It helps fade dark spots, boost collagen, and smooth texture.
- **Go Easy on Acids:** Scale back on harsh AHA/BHA serums and peels so you don't strip your skin barrier after months of heat, salt, and chlorine.
- **Book Your Annual Skin Check:** Now is a great time for a full-body skin exam to check for any new or changing spots post-summer. Early detection is key.
- **Keep Wearing SPF:** UV rays don't take a fall break, so don't stop applying broad-spectrum SPF 30+ every morning!
